# What can we do?

Our professional engineers have a wealth of global railway knowledge and experience. By growing their experience in the rail industry for many years, our engineering team have the expertise to meet the requirements demanded by the industry standards, our customers and the Safety Approval Authority.

By developing new systems and products from design concept through to in-service maintenance; our engineers work closely with, and help guide our customers throughout the development life cycle.

Rowe Hankins Ltd. is committed to continual improvement, development and growth with a complete understanding of their customer, end-user and future rail market requirements.

The electro-mechanical service department carries out a variety of work, specifically overhaul, service and repair of:

DC Circuit Breakers

Pressure Switches

Contactors

Delta Switches

Overcurrent Relays
